

Tree Diagrams Revision

(a)	(b)	(c)
<p>Allie and Alex play two games of tennis. The probability of Allie winning the game is 0.45.</p> <p>(a) Complete the tree diagram.</p> <div style="text-align: center; margin: 10px 0;"> <p><u>2nd Game</u></p> </div> <p>(b) Find the probability that Alex wins both matches.</p> <p>(c) Find the probability that Allie and Alex win one match each.</p>	<p>Yusuf spins two fair spinners, A and B. Spinner A can land on a 1, 2 or 3. Spinner B can land on a 2, 3 or 4.</p> <p>(a) Draw a tree diagram.</p> <p>(b) Find the probability that the total on the spinners is an odd number.</p>	<p>There are 10 biscuits in a tin. 7 are digestives and 3 are bourbons. Temi takes a biscuit at random from the tin and eats it. She does this two more times. Calculate the probability that she has eaten at least two digestives.</p>
