

## Constructing a Seed of Life

For this construction you will need to work on a piece of A4 paper in portrait.

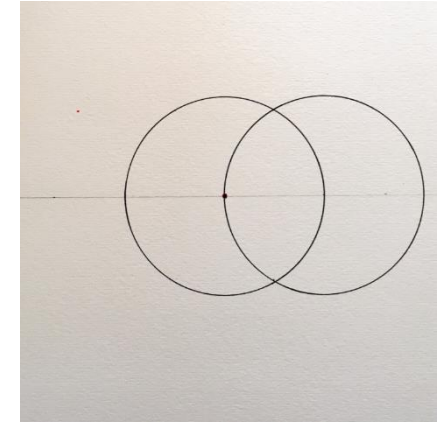

**Step 1** – Draw a horizontal line halfway down your paper. Mark a centre point in the centre of this line.

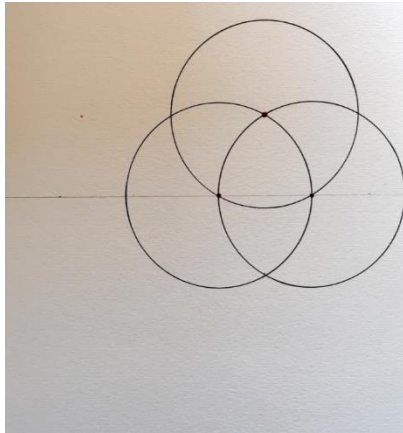

**Step 2** – Draw a circle of radius 4cm.

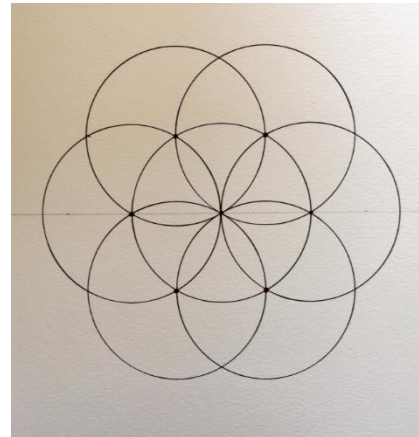

**Step 3** – Keeping compasses at same radius, draw another circle with centre where the first circle meets the line

**Step 4** – Keeping compasses at same radius, draw another circle with centre at the intersection of the first two circles

**Step 5** – Continue working around the centre circle, adding circles with centre points at each intersection

**Step 6** – Colour your seed of life with pencils or fineliners!
