

## Origami Butterfly

To make this butterfly you will need a 15 cm square of origami paper.

**Step 1** – Fold the square in half horizontally.

**Step 2** – Open the paper back up and rotate through 90°.

**Step 3** – Fold the square in half horizontally again.

**Step 4** – Open back up, then rotate through 45°.

**Step 5** – Fold the bottom point up to the top point to make a diagonal fold.

**Step 6** – Open back up, rotate through 90° and make the other diagonal fold.

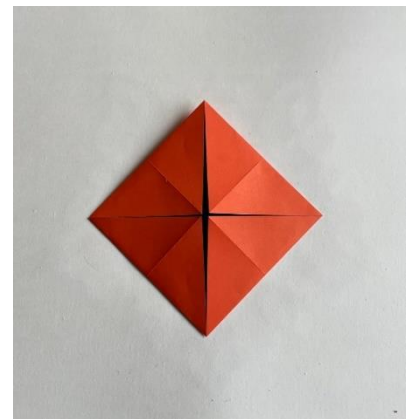

**Step 7** – Open back up to reveal the four folds.

**Step 8** – Fold the bottom point up to meet the centre of the four folds.

**Step 9** – Repeat with the other three points so that you have a square.

**Step 10** – Turn over. Fold the bottom point up to the centre, where the folds meet.

**Step 11** – Repeat with the other three points so that you have a smaller square.

**Step 12** – Open back out to reveal all of the folds.

**Step 13** – Fold the left-hand edge in to the centre vertical fold. Repeat with the right-hand edge.

**Step 14** – Pull the paper down at the top left and top right, folding along the diagonals above the centre.

**Step 15** – Take the top edge and fold to meet the centre, making a house shape.

**Step 16** – Repeat steps 14 and 15 for the bottom half of the paper.

**Step 17** – Fold in half horizontally away from you, to make a boat shape which is open at the top.

**Step 18** – Take the front right-hand point and bring down along the diagonal fold.

**Step 19** – Repeat on the left-hand side.

**Step 20** – Make a fold from point A to point B on the right side. Repeat on the left-hand side.

**Step 21** – Fold in half vertically towards you.

**Step 22** – Make a fold from point C to point D. Fold forwards and backwards.

**Step 23** – Open up with the V-shaped mountain to the front.

**Step 24** – Pinch the V-shaped body together, you now have a lovely origami butterfly!
